

Digital Gamesheets - Help Resource

Frequently Asked Questions

- **Where to get my Gamecode?**
 - In the app navigate to the **Schedule** tab and click into the event. Scroll down and click **Digital Game Sheet** under **Additional Information**.
 - From the web, go to **Schedule** and click **Actions > Gamecode**. You can also click into the event, or click **Share > Export Gamecodes**
- **Where do I go to access the Digital Gamesheets feature?**
 - <https://games.teamlinkt.com/>
- **What device can I use?**
 - TeamLinkt's Digital Gamesheets work with any device - whether it is a phone, tablet or computer.
- **Do I need an internet connection to use Digital Gamesheets?**
 - You will need internet to enter your Game Code to start the game, and to finalize the game, but otherwise an internet connection is not needed
 - If your arena/facility has poor internet connection, we recommend entering the game code prior to entering the arena, then finalizing the game when you leave.
- **What happens after the game is finalized?**
 - Once a game is finalized, the league/association the game was scheduled by will have access to the score, stats and official signatures and notes.
 - **Note:** once a game is finalized, it can no longer be edited in the Gamesheets section. The league/association will have to make any edits needed.

Best Practices for using Digital Gamesheets with Minimal / No Cell Service

- Make sure to enter your game code when you have cell service. You do not need cell service once you have entered the game code.
- Take screenshots periodically throughout the game. This would be recommended in case a device dies, or an error occurs
